

## 2. COVID 19 SAFETY PROTOCOLS

Information on preventive measures for events to be held in the new normality

## Introduction

This document sets out the preventive measures for events taking place during the new normality.

With the end of the state of alarm, and the consequent transfer of powers to the regional governments, each of them has developed an action protocol for activities, including our own.

All our activities are currently affected by the Order of 07 May 2021 and its revisions, adopting preventive public health measures in the Region of Andalusia to deal with the health crisis caused by the coronavirus (COVID-19), once the state of alarm has been lifted.

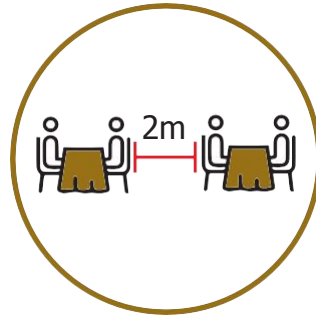

# SPECIFIC PREVENTION MEASURES IN SEVILLE CONFERENCE AND EXHIBITION CENTRE FOR THE DEVELOPMENT OF EVENTS

Preventive measures for catering and restaurants:

Provision of food in individual, not shared, formats.

Minimum safety distance between tables: 2 metres.

Methacrylate screens at customer service points.

Intensified hygiene protocols related to food handling.

Strict cleaning and disinfection measures in kitchens and rooms.
